Subject : Contract

25X1

Gentlemen:

25X1

Confirming our telephone request of this date, please furnish us with a proposal covering the following items under proposed Work Order Modification:

25X1A

- a. Revise Punka air systems at rear of HPSC device to reduce air flow to a velocity of 30 feet per minute. Same degree of temperature and humidity control will apply as in the past.
- b. Devise and install a protective rail at the rear of the machine which will keep inquisitive persons from accidentally touching the very delicate moving and electronic components while not obstructing the computer floor accessibility or the air flow pattern.
- c. Accomplish a thorough clean room type cleaning operation to get the space down to design standards initially.

Thank you for your early cooperation.

Very truly yours,

25X1A
